REMARKS

The title is objected to. The drawings are objected to. Claims 1-10 are allowed.

5   1. Objection to the title:

The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

A new title is suggested.

"Data card holder and ejector" should be changed to --Latch for electrical
10   device (battery) combined with data card ejector--.

Response:

The title of the invention has been changed to more clearly describe the claimed invention. The title of the invention is changed to read, "Latch for
15   electrical device combined with data card ejector". Acceptance of the title is respectfully requested.

2. Objection to the drawings:

The drawings are objected to because: Figure 7, for card 80 an arrow like
20   102 should be added.

Response:

The arrow 102 in Fig.2 was originally intended for indicating the direction that the card 80 moves when exiting. To more clearly show this, the arrow 102
25   has been moved from its original position closer to the card 80. No new matter has been added. Acceptance of the amended drawing is requested.

Respectfully submitted,
